

GEPHI settings 2022

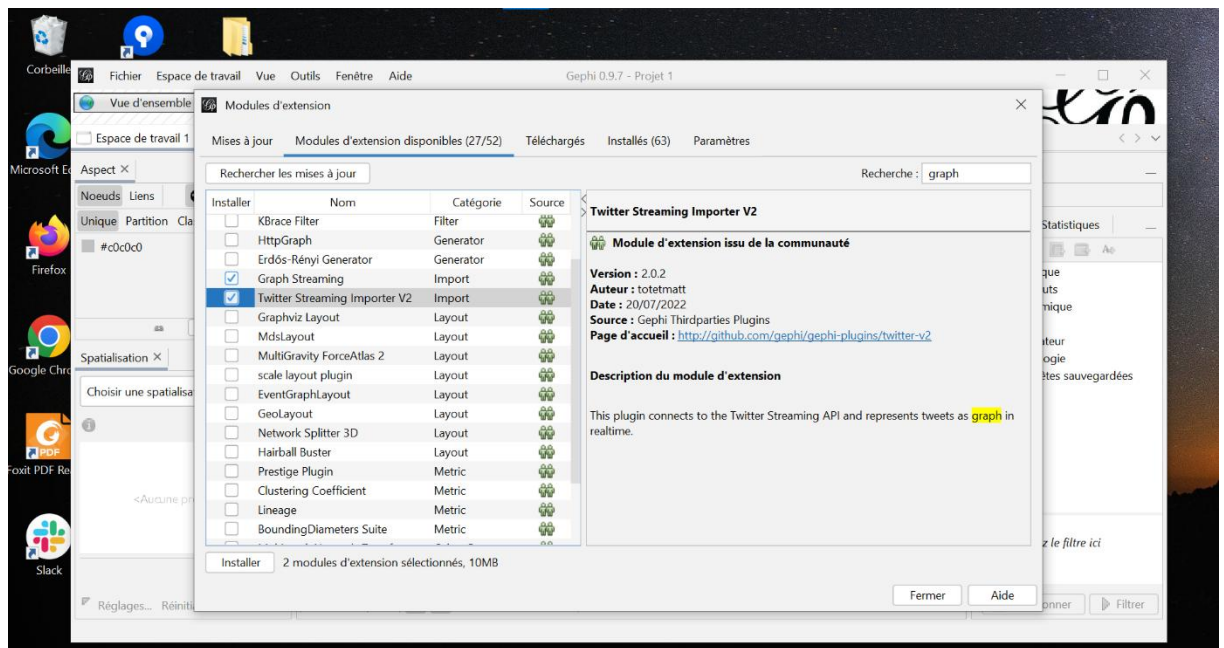

You need to have Gephi on your PC/Mac with a recent Java environment or to use the online version <https://www.rollapp.com/app/gephi>. Below is the configuration of Gephi 0.9.

There are 5 steps to follow until you can access to a Twitter stream.

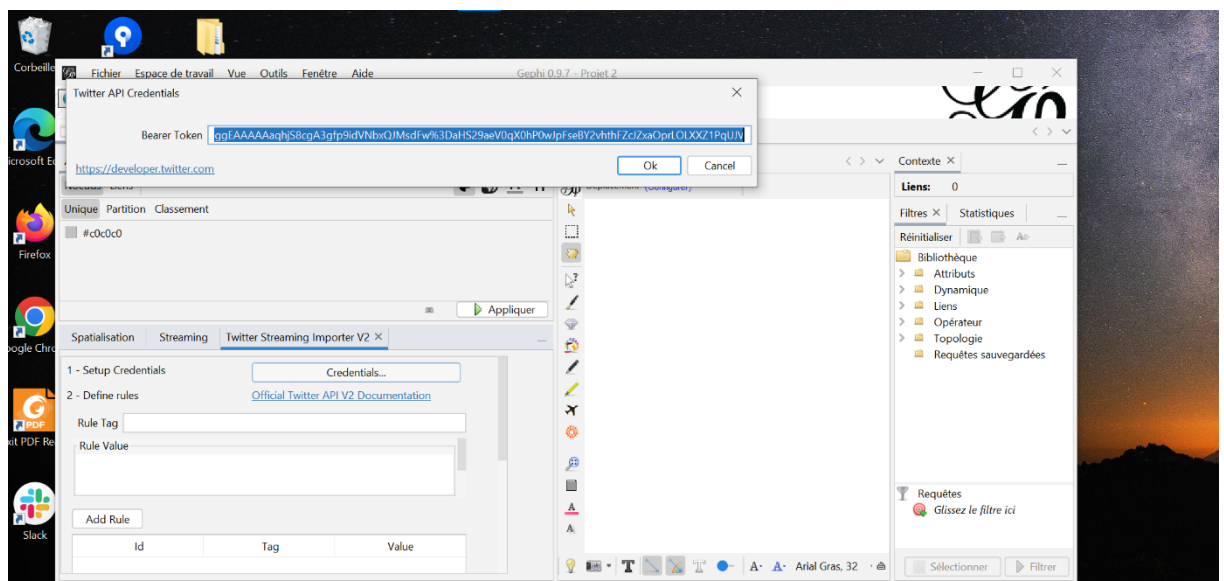

Step 1: Il faut importer 2 modules supplémentaires. Suivre :

Outils, Modules d'extension: Graph Streaming et Twitterstreamingimporterv2

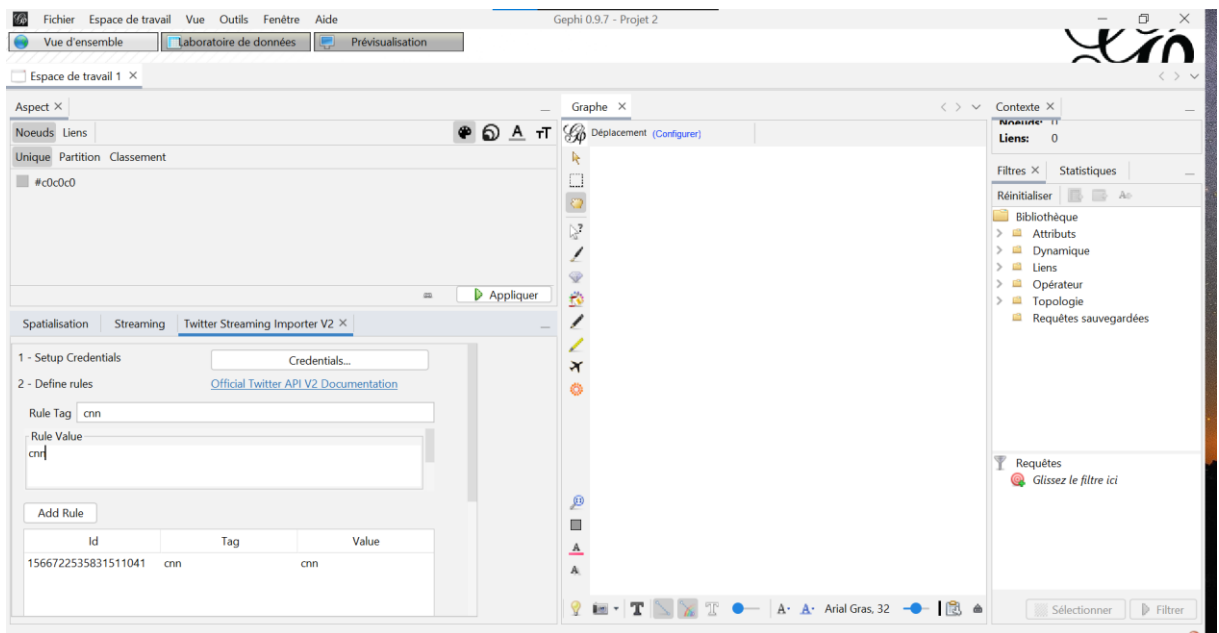

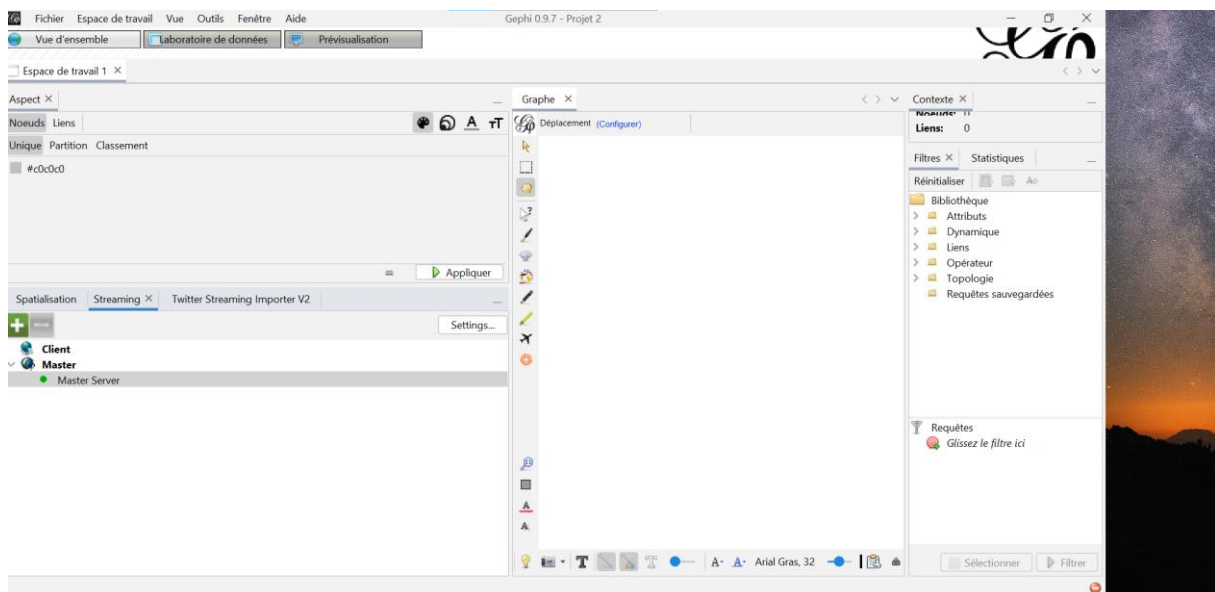

Step 2: Twitter streaming, credentials. Suivre le lien, identifiez vous sur Twitter, créez une application, copiez le bearer token.

Step 3: Twitter streaming window, rule tag, rule value

- **Step 4:** Streaming window: Master Server doit passer de rouge à vert (bouton droit)

- **Step 5:** Twitter Streaming window, Start (en bas)
